

SKI FOR LIGHT

Invites you to ski with us as a Nordic Ski Guide!

We're looking for experienced cross country skiers to serve as ski guides for blind, visually and mobility impaired adults. Share your time doing something you love while helping disabled skiers experience the joy of Nordic skiing! **Ski For Light, Inc.** is a not-for-profit all volunteer organization founded in 1975.

Our annual "Ski for Light International Week" attracts more than 250 active adults from the U.S. and international locations. Experienced cross country skiers are matched with disabled skiers for a full week of skiing, camaraderie and special activities in the snow. Disabled participants range from novices to life-long Nordic skiers.

COME SKI WITH US!

We'll train you to be a safe & effective ski guide.
